

Manage. Monitor. Control.

IMAGINE A COMPLETE FUEL OPERATING SYSTEM

INTRODUCING THE
Energy Knowledge Operating System

The ONLY system that provides software, modules, applications, and other cloud based tools to help you BUY, MANAGE & TRANSACT within the fuel industry.

EKOS is the end-to-end cloud based platform that provides Fleet Managers with visibility of their fleet equipment, fuel management processes, inventory monitoring, compliance, and reporting

Fuel Site/Inventory Management:

Easily monitor and know the status of your fleet equipment at a glance. By utilizing EKOS, Fleet Managers can efficiently and effectively monitor Fuel Sites and Inventory.

Bulk Fuel Management:

Easily order and dispatch bulk fuel for your sites. Centralized document repository to aide in reconciliation of bulk fuel orders and the ability to monitor bulk fuel quotes against a Fair Fuel Index.

Fleet Management

Easily manage all aspects of your fleet – drivers, vehicles, cards, etc. Perform onsite and offsite transaction consolidation.

Compliance

Keep your fuel site in compliance with the ability to keep and maintain all documentation in one, central repository

With EKOS, you can easily perform tasks such as:

- ✓ Fuel Control & Transaction Tracking
- ✓ Fuel Card Acceptance – Local Auth or Networked
- ✓ TLS – Basic Alarm & Delivery Reports
- ✓ Manage all aspect of your Fleet – Drivers, Vehicles, etc.
- ✓ Order/Dispatch Bulk Fuel Deliveries, Reconcile Invoices, & Manage Suppliers
